

CARDON CENSUS

Variations will be found, especially in names of those who came from Italy. The official name is the one found on the parish record at the time of christening, but some of the descendants wanted more Americanized names or added names. For instance, Susanne on the parish record might call herself Susannah or Susette. Barthelemi on the parish record might be called Barthelemy or Bartholomew or even Thomas B.

Place names have usually been given as they are today. For instance, Prarustin is on the early records in French, but now is called the Italian name Prarostino. There are two San Secondos. Our people come from San Secondo di Pinerolo (old Ste. Second de Pignerol). Piedmont is Piemonte in Italian.

Maiden names of non-lineal descendant women are not listed separately on the index.

A long blank with a number after it indicates that person's name was not given to us. This is used usually when a husband's first name or a wife's maiden name was not given.

Some of the additions and corrections were discovered late and had to be added at the end of the Link Number Index (Cardon Census).

THE LINK NUMBER INDEX

This is an index to a card file in possession of Genevieve Johnson. The numbers represent the relationship of the person named to the immigrant ancestors Philippe Cardon and Marthe Marie Tourn Cardon, who came to Utah from Prorostino (Prarustin) Torino, Italy in 1854.

The alphabet letters in the index are in "lower case" letters, while the alphabet letters on the family group sheets are "upper case letters", but they are referring to the same person.

If your name were Edith Cardon Thatcher, for instance, your number would be 5b-4b-2. The 5 means that your ancestor was the fifth child of Philippe and Marie (that is the name she went by), Louis Philippe Cardon. The "b" means that your ancestor was from the second wife, Susette Stallé. The 4 means that your ancestor was the fourth child of Philippe and Susette, Louis Paul Cardon. That "b" means that your progenitor was from the second wife, Edith Jemima Done. The 2 means that you were the second child of Louis and Edith.

In a few instances you will find a name in parenthesis before the number. That is either a nickname, or it is their name originally and was later changed. In some instances where a person was known by his middle name, that person is listed under his middle name with his whole name in parenthesis.

The married name of a Cardon descendent female is in parenthesis after her maiden name. She is also listed with her husband under his name.

Children of re-married direct descendents are numbered in order even though they may have different parents. Stillborn children are not listed in the index, but usually appear on the family group sheets. Neither have we included family group sheets for marriages for which we have no children listed.

Due to the tremendous amount of information we have collected, we found it impossible to include in this book all of the family group sheets we have prepared. We are, however, including in the index ALL of the information we have been able to collect to this time.

If anyone wishes to have copies of other information we have, we would be happy to make it available for the cost of copying, if you will let us know what you would like.

There are sure to be mistakes or omissions and Genevieve Johnson or Edna Taylor would appreciate receiving any corrections or additions.
